

Northern Vermont Parcel Data Project

Town of ***** Final Report and Data Update Plan

Date range of Project:

Project Contact Name:

Mapping Contractor name/company:

1. Please describe the final product/results of this project (For Example: digital parcel data and tax maps describing 1000 parcels, data meeting VT GIS Parcel Data Standard):
2. Please describe the value to your town that this final product provides (how will you use it/them?):
3. Please identify how frequently you plan to update the digital parcel data for your town:
4. Please identify who will update the digital parcel data for your town (contractor named above, a different contractor, town officials, etc.):
5. Please delineate how much it will cost to update your digital parcel data in order to continue to meet the state standard:
6. Please identify how you will pay for the periodic cost to update your digital parcel data (e.g. using appraisal funds provided by the state, amount has been added to town budget, etc.):
7. Please describe any “lessons learned” during this project (e.g. allocate more time for working with contractor, review contractor work more, ask contractor for more instruction in using data, etc.):
